

# Boar Tar

## Special Tar to attract wild boars

### General

**Boar Tar** is a Special Pine Tar used to simplify the hunt and attract wild boar.

Spray or brush a thin layer of Boar Tar on a tree trunk or wooden post and you can easily attract wild boar who will rub against the impregnated tree. The **Boar Tar** simulates the tree to be rich in resin that is used to rid wild boar of parasites on the skin.

They can by using their good sense of smell feel the smell in a long way, when the tar scent dispersed by the wind.

### Range of application

**Boar Tar** can be sprayed or brushed on a tree trunk or wooden post to attract wild boar to the site.

### Instructions for usage

**Wild Boar Tar** is easy to apply and can also be applied on frozen and wet tree trunks. Brush/Spray the Boar Tar from ground level up to approx. 1 meter on the trunk/post. The tar scent is then carried by the wind and the wild boar can easily seek out the treated timber. For best results, maintain regularly by applying a thin layer of **Wild Boar Tar**.

### Packaging

60100096 / 600 ml  
60101545 / 5 -lit burk

### Technical data

Cleaning:	White spirit or ethanol
Storage:	24 Months (Unopened can)

**For further information we recommend the safety data sheet or instruction on package.**
