

NCS Atlas 2050

The multifunctional tool for point-of-sales, colour training, customer guidance or as an office tool. The ultimate tool for colour navigation and a must-have for colour professionals.

- Offers a complete representation of the NCS Colour Space.
- The National Standard in Sweden SS 19102:2022 and Norway NS-SS 1910.
- International ASTM Standard (E2970) on the Practice for Specifying Colour. Referred to as the National Standard of Spain and South Africa.

HOW THE COLOURS ARE ARRANGED

Each NCS 2050 Standard Colour is represented by a mounted colour chip, positioned on its relationship to the colours in nuance and hue. The chips are organized based on the position of each colour in the NCS Colour Space.

COLOUR RANGE

Complete with the NCS 2050 Standard Colour range. In other words, a total of 2050 colours covering the human visibility of colour.

INCLUDED IN THE PRODUCT

- NCS 2050 Standard Colours.

WHY AN NCS PRODUCT?

The NCS System is the only colour system 100% based on visual perception of colour. For professional colour work, the NCS Atlas 2050 is perfect for deepening your own understanding of the logic that the NCS System is based on, and to further understand the relationship between colour and light.
