

Paintwash Roof/Facade

Product description / Area of use:

Hagmans Paintwash Roof/Facade is a concentrated effective alkaline cleaner that removes soot deposits, algae and the like. Hagman's paint wash works on all kinds of outdoor surfaces such as painted surfaces, sheet metal, cardboard, stone, eternit, concrete etc. The product does not adversely affect other parts of the house.

Technical information:

Base material: Surfactants

Density: 1.03 kg / L

Material consumption: 6-7 m² / L working solution

Storage time: Frost-free 5 years

Pretreatment:

Remove larger lumps of moss and other debris. Cover flowers and the like.

Instructions for use / application:

The product should be diluted 1: 5 - 1:20 depending on the degree of soiling. Apply the paint washer with a low-pressure sprayer, brush, roller or sponge, leave on for about 10 minutes. For heavily soiled surfaces, mechanical machining with a brush is recommended. After processing, rinse the surface with plenty of water. For best effect wash at + 10- +30 degrees. Do not treat sun-warmed or frost-coated surfaces.

Other information:

Wear rubber gloves and safety goggles when applying and removing the product. For extra protection with long-term effect against algae and mold, apply Maintenance wash diluted 1:20 and let dry for at least one day before painting.

Packaging:

1L, 4L
