

H₂O

Grey Remover | RR5050

Field of application. Greyed wooden objects, such as floorings, doors and windows, garden furniture, claddings, enclosures, beams.

Information. It brightens and revitalises greyed and oxidized woods. It removes grey effect from any kind of wood. It restores the original look of the wood by deeply sanitising it. Its soft-gel formula allows the application on both flat and vertical surfaces. Suitable for all timbers.

Instructions. Remove any traces of coating from the surface to be treated. Vigorously shake RR5050. Apply with a brush until a layer of a few millimetres is formed. Apply with a nylon or natural brush (do not use metal brushes). Leave on for 15 minutes. Rinse with abundant water, cleaning with the brush. Otherwise, rinsing is possible with a high-pressure cleaner (maximum pressure 60 bar). When treating hardwoods, the operation must be repeated to obtain a better brightening result. Depending on the type of wood, the result may be different. After rinsing with water and the complete drying of the wood (about 2-3 days), coating the object will be possible.

Packaging. 0,75 L - 5 L

Storage
> 5°C

Painting
> 10°C

Ready to use

Brush

Yield
10 m²/L
